

# AURORA

## Unique and adventurous design

Do you want to add an eye-catcher to your resort, glamping site or holiday park? Aurora is what you are looking for! This luxurious lodge stands out for its design, robust wooden frame, and nautical details.

It offers impressive glamping accommodation for guests looking for a unique stay in the great outdoors. The Aurora is our most stylish glamping lodge with room for up to four people. It has a veranda, a fully-equipped kitchen, two spacious bedrooms with box-spring beds, and each room comes with a bathroom with shower and toilet. It is perfect for families and friends who want to enjoy outdoor living in luxury.

The Aurora can be equipped with air conditioning, to give your guests extra comfort, and you can add a swing to the veranda, so your guests can relax with a book and a drink.

With all the comforts of home, the Aurora takes glamping to a whole new level!

- ✔ Unique shape with nautical elements to give your resort a distinct look and feel
- ✔ Spacious outdoor living, designed for the warmer seasons
- ✔ Fully-equipped kitchen, including an oven
- ✔ Two separate master bedrooms

# SPECIFICATIONS AURORA

Elements	Colour	Specifications	Technical standards
PVC Roof	Grey Beige Brown Green	UV and flame retardant PVC 650gr/m <sup>2</sup> .  The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837  DIN 4102 – Class B1  M2 Classification NFP 92-503  EN 13501-1 B-s3, d0  Total weight DIN and ISO 2286-2 – 650 gr/m <sup>2</sup>
Flame retardant Polyester (FPTC420)	Any color	Flame retardant 420 gr/m <sup>2</sup> . The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading.	FPTC420 meets the following standards:  Weight 420gr/m <sup>2</sup> + 5%  Standered width: 150 cm  Tearing strenght: ±10% - Warp: 79N - Weft: 53N  Tensile strength: ± 10% - Warp: 2800N/5 cm - Weft: 2232N/5 cm  Watercolumn: ≥ 400mm  Color fading level: GR6   ISO105B04-1994  Mildewtreated: Level 0   AATCC30-2017  Fireproof level: M2   BS7837-1996
Fixing		The inner tent hanging system is a unique system. It has no point loading, so the weight is equally distributed across the surface of the structure.	

## Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you bought your tent or lodge.

## Interested?
